

CASE STUDY

Navigating Complexity: How Panoram Streamlined & Simplified PCB Byrne's eDiscovery Challenge

CHALLENGE

A cross-border, multi-language oil and gas litigation dispute provided a challenging framework for PCB Byrne. With 300+ GB of data, 2+ million documents and 20+ custodians, efficient support and eDiscovery was a necessity, so PCB Byrne turned to Panoram for assistance.

SOLUTION

Panoram Digital's knowledgeable eDiscovery team immediately responded to meet the client's needs. The collection of multiple datasets was facilitated from a number of international locations, and the data was processed in Nuix Workstation and hosted in Nuix Discover. Panoram used culling techniques including de-duplication and email threading to significantly reduce this dataset and meet the client's DRD requirements.

The Panoram Digital eDiscovery team set up an advanced review workflow to align with the complexities of the search terms. We collaborated with the document review team and deployed CAL (Continuous Active Learning) within Nuix Discover, to further manage tight timelines and reduce costs. We also provided bespoke training material to support the review process.

Panoram Digital also provided eDiscovery PM support to the legal team throughout the disclosure process including assisting with redactions, producing multiple production sets and importing various productions received by third parties and assisting in the preparation of witness statements and eBible Court bundles.

'Thank you for your hard work and support with Project North. It was a challenging case at times and we appreciated the expertise and responsiveness of your eDiscovery team.'

Nick Hutt,
Chairman VTB Capital and CEO ABFA
Investments

'Thanks to everyone at PCB Byrne for getting this over the line. You have been amazing.'

Partner at PCB Byrne

Results

-  Data set significantly culled via advanced tools within Nuix Workstation & Discover
-  Efficient document review workflow set up and project managed
-  Rapid response support provided to PCB Byrne's legal team.
-  All Court timetables for Disclosure met
